Reflection -the fact that easy washing has been made safe. Until Pearline came, it was dangerous. Pearline takes away the danger as it takes away the work. There is no scouring and scrubbing, to wear things out; there is no trouble in keeping things clean. Pearline is better than soap. With soap, you need hard work; for easy work,_

you need Pearline. Peddlers and some unscrupulous grocers will tell you,
"this is as good as" or "the same as Pearline." IT'S
FALSE—Pearline is never peddled, if your grocer sends
an imitation, be honest—rend it back.

Peddlers and some unscrupulous grocers will tell you,
The same as Pearline is never peddled, if your grocer sends
An imitation, be honest—rend it back.

A Good Keep your skin clear, How To Complexion fresh, healthy, and beautiful, and you can

Obtain It rest assured that your blood is pure. If, on the other hand, your skin is sallow, complexion dull, and pimples, boils, or other eruptions appear, you are in danger; your bood is bad. Begin taking at once Nature's blood purifier, the celebrated compound

Kickapoo incian Sagwa

It keeps the life-current pure and clean. Remember that it is not a mineral preparation, like many so-called sarsaparillas. It is compounded

from roots, barks, and flowers from the forest gathered at the proper season, and prepared by those skilled in a knowledge of their medicinal virtues.

AN ENGLISH PRAUD.

NEW YORK, April 23. A Chicag special says an Englishman, calling him self C. II. Cook, has been a recipient of many favors from lending officials of hat a dozen of the b greet railroad companied in this country. He represented himself as an official of the London and Northwestern Railway. He has been given private cars, and namual passes, and tendered diamers, luncheous, and theatre boxe, without number, and has traivelled allower the country free of cost. It has been extended, however, from a representative of the London and Northwestern that C. H. Cook never has been associated with the Company in any official capacity whatever, and is a fraudulent character.

President Harrison's Reply to the Bessel of Reffale, Wy.

Buffalo, Wy., April 23. President Harrison introply to an appeal from the people of Boffalo, asking that an investigation into the extlemen trouble in Wyoring be made, mys: "The prisoners will, as soon as the State authorities of prepared to receive them, be turned over to the civil authorities and our connection with the master will end, unless further called upon to labt the State authorities in preserving pence. I do not doubt that the Executive and Judicial authorities of your State will, without fear or favor, bring to trial and punishment those who have violated the law by disorderly methods. Nothing will be done to sheld any guilty person My council, as your fellow cit zon, is to use every effort to allay exchement and proceed in all things peacefully and upon lawful lines." The people of this piace are very much pleased with President Harrison's reply, and are satisfied that a thorough investigation will be made and justice meted out immediately.

MUST OFFY THE LAWS. Man Arrested for folling Liquer With-aut a License.

PORTENOUTH, F. H., April 22, W. B. Roynoldi, of Pilstow, Respect of the Royal drugs and however, was arrested yesterday by United States Marshal Herce, charged with selling liquor, w thout having paid a special tax imposed by the Government, and brought to this city. Thus morning he was arraigned before United States Commissioner Batchelder, say: held in \$200' for appearance in the May term of the United States Court.

Sarsaparilla All Run Down With Dy's je jsia

The peculiar combination of stomach tonics and alterative remedies in Hood's Sarsaparilla cannot be equalled, and this superiority explains the wonderful

This Creat Medicine in cases of Dyspepsia, Indigestion and similar troubles. . Mr. T. A. Wheelock, a well known citizen of Burlington, Vt., writes:

"Six months ago I was badly run down and unable to attend to business. The principal trouble seemed to be due to indigestion and aggravated dyspepsis. I had no appetite.

Nothing Tasted Good MOTHING TASTED COOL

and what I did eat distressed me. Added to
this was a fierrous disturbance. Physicians
that I employed failed to reach my case I
grew worse, loss flesh and almost hope One
day I ran across a testimonial for Hood's
Sarsaparilla stating what it had done in what
seemed to be a case similar to mise. I got a
bottle and in three or four days saw that I
felt better. Before I had finished the first
bottle was greatly improved. Rested better,
felt hetter, and knew I was

Better All Over I continued with the medicine, and have taken two bottles and now feel better than at any time for the past five years. Peel as hearty as when a boy. Have regained my fiesh, have good appetite, can sheep well and may nerves are in excellent condition. I would not value a thousand dollars for what it did for me." T. A. WHYELOCK Burlington, Vi

We have sold Mr. T. A. Wheelock we'ral bottles of Hood's Savapprilla and nave heard him tell in high terms of com-mendation what it has done for him. I know that he has recommended.

Go to the Polis.

With anything like proper effort to-day the Republicans can elect their candidate care to support? for Mayor by a decisive majority It is a give a strong impetus to the campaign this fall. The Democratic candidate is dent of the Association rends us a letter, not popular with his party, not withstand- which will be found elsewhere, denying ing the fact that the Commercial has tried the statement. So much for the "moral to make it appear otherwise. A compari- worth of the candidates ' son of the vote last spring with the vote at the regular election this spring will afford abundant evidence of the truth of this statement Last year he had a District Convention, to be held at Baugor

caus char carry the election to-day if they opportunity to bring about some het that will give a little attention to getting out will be of benefit to the district and his the vote. Bangor should stand squarely constituents, and has always been found in the Republican column to-night and on the right side of all the great questions this desired result can be obtained if each of such a man are appreciated by our man does his share of the work. With people fit out of the seven wards Republican and a Republican Mayor Bangor will be

The District Commutee has invited by B Peaks to preside at the Fourth Dismember that this is an important political year and do not allow personal differences to influence your action at the polls. Now is the time to strengthen the party organ

None doubts that Mr Beat will make a good Mayor, but should be prove the dangerous man the Democratic organ has talked about, the remedy in in the hands of the people next spring, and in the meantime with a Republican City Covernment municipal affairs will be amply protected But the Democratic organ is making this talk for political John H STONE Rec. GEO LANSIII. May r in office for the remainder of the year The people practically decided against him at the last election, however, as he was only saved from absolute defeat by the majority clause in the charter. This is of itself sufficient answer to the talk referred to The people should make their verdict more emphatic this time Rally at the polls to-day

A Contemptible Falsehood.

The reference in the Commercial Saturday night to the) M C A subscription fund, charging that Mr Beal "has persistently evaded payment" of his voluntary subscription, only serves to show its utter lack of principle. The statment is a liq and what is still worse Mr. Bass deliberately published it know ng it was a To Owners and Drivers of Hacks, lie. Early in the week Mr. Base sent one of his scavengers to the officers of the As sociation and asked them if Mr. Beal had not refused to pay this subscription. He was then and there told that t was not true. This emphatic statement from the officers who were in a position to know all about the matter ought to have settled it It would have disposed of the question in the mind of an honest man, but what did Mr. Bass do? He did not dare publish the lie at the time because that would have afforded ample opportunity to eet and refute the charge. Wint he did do was to hold the matter until Saturday night knowing that the centradiction could not come until the morning of the election, as he hoped that he might me able to steal a few votes before the people period of the contemblippe tracpeod pe www sale , Joseph 6 2's

We publish a letter from President Blake this morning over his own signs-ture, stating that Mr. Heal has not synded the payment of his subscription, rat on the other hand has always and test the obligation would be discharged, and the officers of the Association have no cea to doubt it. Mr. Beal has not felt that it was quite convenient for him to pay the eription up to this time, one res being that he has not as yet rec the loss from the insurance disaposies of the Banger-House are. The distinctly is

count of questions being involved that 1809.

1802.

In if the Commercial will take the pales to inquire it will find that Mr. Beal is not the only one who has not yet paid his st b-

cut of personal spite. The performance is a boomerang of the most pronounced type, as the only man to be hurt is Mr. Basa, who publishes the lie in the meanest manner possible, knowing all the time that it had been repudlated by the officers of the Association. Fair minded men of all parties are disgusted with this dirty piece of business.

AGRICULTURAL.

The Care of Hors.

A writer for the Western Agriculturist, speaking of the abuse of hogs, exclaims: was injured the latter portion of last week Give your hogs a fair chance, warm quarters, a clean place to eat, middlings to the mother and her young, clover field to run in, plenty of fresh well water always before them, and then get good. shapely, quick maturing hogs and you proving from his illness and hopes to be and attention. Who thinks of raising will change your tune. Hogs need care out aga a the first of this week.

The regular monthly church meeting of Who thinks of raising horses without a the First Congregational society, will be barn? All that the hog asks is a fair trial and he will repay you fully for li. Try it

pare coh charcoal for hogs. He says as a rule, where corncobs are charred in an with the millinery store of Miss E. M. open fire in the yard, there is cons derable danger arising from sparks which may cause conflagration, and cobs burnt in an open fire lose too much carbon that should be retained. He saves all his corncebs when shelling during the summer, when feeding soaked corn, and stores them under shelter, often having as much as two or three hundred bushels of cobs which become dry. When ready to char, he digs a hole in the ground five feet deep, one foot in diameter at the bottom and Mr. Mellen Gilman, of North Brewer, five feet in diameter at the top. He uses has purchased a lot on Washington street, a spectiron cover five and one-half feet in and the preparatory work for the building diameter, so that at least six inches will The big three-masted schooner, Robert ameter, with a handle riveted on one side. Start a fire in the pit, acd one bushel of houses of the Cochran-Oler Ice Com-pany, and cleared Saturday forencon. add more, say three bushels. See that alike. Continue with this process until then place the cover. An iron rod is use ful in assisting in this work. Seal the edges-of the cover all around with earth and in twelve hours the coal is ready to be taken out. He says condiments are essential to the hog because of the high feeding with concentrated food and are more essential the pearer the animal be comes ripe for the market because of its the organs become surrounded and filled up with fat. The hog of to-day is under The social held by the Ladies' Sewing artificial conditions and is largely de-Circle, connected with the First Congre-prived of the natural privilege to go and last weel, was the last of the season. the soil. S. S. S. It entirely vegetable, and never fails to eliminate the oison. Send for Book on the Blood, etc. SWIFT SPECIFIC CO., ATLANTA, GA.

The machine is simple and efficient. Great ingenuity has been displayed in accomplishing what was considered by many familiar with the cotton plant, an impossibility, for it picks the ripe and only the ripe, without injury to the unripe, the blooms or foliage. No revolution in any industry has been produced in the past that can compare with what this machine is destined to make in the production of particular in the pa

with what this reachine is destined to make in the production of cotton in the near future.

The financial success of the telephone was phenomenal, but parties who let opportunities to invest in it pass by can excuse themselves, as there were no precedents or known facts to guide them. With the Cotton Picker it is different. The amount of labor to be performed is known, and the sout to perform it by present methods and by the machine.

Four-fifths of the human race are clothed with cotton. The expense of picking from the plant is \$3 per cent, of its entire value in the bale. The amnual crop exceeds \$,600,000 bales, which cost \$12.50 per bale to gather—a total cost of \$107,500,000. This machine wil harvest if to \$20,000,000 saving \$87,500,000. No effort, however great, can supply the demand for this king of labor savers to harvest the next crop, but much can be done. The machines will cost about \$100 each, so that the man who purchases 10 shares at par, \$10 each, will enable the company to build one machine, which is expected to save fully \$1000 in labor to the cotton planter. An equitable division of this will enable large dividends to be paid, which will be shared by every stock owner. The stock will be sold in los to suit, a single share or blocks of any size, at the office of the company, 31 Mills \$1, Boston.

This is an opportunity of a life-time, as the future of this company can be forecast with great certainty from known facts.

E. C. NICHOLS, AGENT, BANGOR.

For DYSPEPSIA.

tion with a watering put over the whole This unfailing rem siy for Dyspepsia of the moschronic type, is the result of many years' medicar research of one of the most noted and eminen medical scholars of the period, Dr. La Vern Swinton. Patent and proprietary nostrams havened to more bitter opponent than this most eminent physiciam. For the simple reasons that the same alone is furnated by prescribed to the sufferer and to matter what temperament of the patient and no matter what temperament of the patient and no matter what temperament of the patient and this, too, in the same of the highest continuous and this, too, in the same of the highest continuous and this, too, in the same of the highest continuous properties will cure a majority of known diseases. Dr. Swinton resided fully to what extent Dyspepsia, whether mild or chronic by impoverishing and poisoning the blood, became the progenitor on maserous diseases, and therefore sought different programming differences or its true specific. In this he was successful, but in prescribing his wonder ful discovery, he never overloaded the great medical truth that the symptoms in each case, the temperamental differences, and even the habits and occupation of the saferer, required not only and theremore in the prescription of his remedy, but also descanded supplemental treatment and dieta.
